Dear Butch;

The Kansas Rural Water Association typically provides follow-up documentation on many of the tech assistance calls the Association does. This is a follow up letter to our conversation on May 1.

As always it was a pleasure visiting with you. I was surprised to hear that the district's water losses are on the increase. If you need any assistance, please let us know.

I was pleased to learn that you plan to register for the "Chlorination and Disinfection; Compliance with Ground Water Rule" training session that will be held in Lawrence on May 20. Kelly Kelsey with KDHE, Topeka, will present on the Ground Water Rule. KRWA consultant Pat McCool will discuss chlorination and disinfection. This will be a very informational session. Bring your questions.

Thanks again for your time and please call if you have any questions. Also visit KRWA's website www.krwa.net for news, other training opportunities and KRWA Programs.

Sincerely,

Gary Armentrout
Circuit Rider
