Re: Doniphan Rural Water District 6 progress

Dear Preston;

This letter is a follow up to my recent visits with the Doniphan Rural Water District 6's governing body to help obtain waterline and archaeological study easements for the district's pending rural water system. On behalf of Kansas Rural Water Association and USDA Rural Development, I appreciate the opportunity to work with all of you.

Having the majority of the easements for the archaeological study obtained will allow Donna Roper of Kansas State University to conduct the archaeological portion of the environmental study that is needed for USDA Rural Development.

I have notified Chris Cox, Schwab-Eaton, the district's engineer, and Dan Fischer, USDA Rural Development Specialist of the upcoming Doniphan RWD 6 Annual Meeting to be held June 16 at 7:00 p.m. at the Highland City Hall, 220 W. Main Street, Highland, KS.

It's a pleasure to be providing help to you and the new RWD. Once the water source is determined, perhaps the project will be able to accelerate the development.

Again, thanks for opportunity to work with all of you.

Respectfully,

Rita Clary
Technical Assistant

C: Dan Fischer, USDA Rural Development
