

KRWA APPRENTICESHIP PROGRAM

The Kansas Rural Water Association has dedicated time and resources to develop an efficient apprenticeship program so apprentices can, through a systematic program of related technical instruction and on-the-job learning, become qualified system operators.

FREQUENTLY ASKED QUESTIONS

DO APPRENTICES HAVE TO TRAVEL TO THE KRWA OFFICE FOR CLASSES?

No. Apprentices have the option to take classes from a variety of sources including KRWA, online, colleges, and others. All classes must be approved by the Apprenticeship Training Committee before you receive credit.

HOW MUCH DOES THE PROGRAM COST?

There is no cost to join the program. The employer is responsible for paying the apprentice's wages.

DO I HAVE TO CHOOSE BETWEEN WATER AND WASTEWATER, OR CAN I DO BOTH?

Apprentices are required to choose between either the water or the wastewater track. After completing one track, apprentices can do the other track.

CAN I GET CREDIT FOR PREVIOUS EXPERIENCE AND TRAINING?

Yes. Previous experience and training must be approved by the Apprenticeship Training Committee.

WHAT HAPPENS AFTER THE APPRENTICESHIP IS COMPLETED?

Upon completion of the program, the apprentice will receive a nationally-recognized credential. The apprentice must take the appropriate licensing exam through KDHE to become a certified operator. Although it is not a requirement, most apprentices continue working for their employer sponsor after they complete the program.

WHAT IS THE ROLE OF THE EMPLOYER SPONSOR?

The employing utility acts as the employer sponsor. Prior to participating in the program, an employer participation agreement must be sent to KRWA for approval. The employer sponsor is required to provide appropriate training and supervision as well as maintain employment and on-the-job training records.

HOW DO I GET STARTED?

To be considered as an employer sponsor, the utility must review the Standards of Apprenticeship and submit the Employer Participation Agreement to KRWA. To apply as an apprentice, the individual must review the Standards of Apprenticeship and submit an application through the NRWA Apprenticeship Tracking System.
